POPPY SALE TODAY A BIG SUCCESS

First Supply of 500 is Quickly Disposed of

WOMEN SELL POPPIES

Funds Derived From Sale go to Relief of Disabled Men of American Legion

The sale of artificial poppies on the streets today by a committee of young women under the auspices of the Woman's Auxiliary to the American Legion was a pronounced success. By noon more than 1,000 poppies had been disposed of. The first supply consisting of 500 poppies was sold in comparatively short order and a large sum was realized from the sale of the oppies. Everyone wore a poppy and others bought them for their automobiles.

When it was seen that the sale was such a success a committee of women of the Legion assisted by others were kept busy making more poppies and almost as fast as they were made they were taken out and disposed of.

The committee in charge will continue the sale throughout the day and also tonight. It was announced at the headquarters of the committee at the offices of Graham and Ogden that poppies also would be sold on the streets Monday.

The funds derived from the sale of the poppies it was stated will be used exclusively for the relief of disabled men of the Legion and their families. All of the funds will be spent here in the city.

Arangements have been made by the members of the American Legion to place croses made of evergreens Monday on the graves of those who made the supreme sacrifice during the world war and others of the Legion who have died since the war. The croses were made by the women of the Legion and are very pretty. About fifteen will be distributed by the committee. The graves are in the various cemeteries in and near the city.

Virginia Soldiers to be Sent to Marion, Belief in Washington

Washington, May 28.—Hospital Commissioner Charles A. Osborne, accompanied by Dr. E. H. Henderson, of Marion, and Dr. William F. Drewery, Petersburg, were in conference here yesterday with officials of the public health service and War Risk Insurance for the purpose of working out plans for transferring Virginia soldiers to the State hospital at Marion.

It is understood that the public health officials have approved the plan, but those attending the conference yesterday would make no statement as to the result of the conference with the war risk officials. It is thought, however, that the plan as now contemplated will be adopted by government officials for economical reasons.

MONTHS SUSPENSION IN TROLLY RATES

Interstate Commerce Commission Advances Date to July 13

TIME WAS JUNE 13

Commission Wants More Time in Which to Study Case It is Announced

(Special to the Gazette)

Washington, D. C., May 28.—Operation of all schedules providing a general increase in one way and commutation fares on the lines of the Washington-Virginia Railway Company, which were filed by the company last February were further suspended today by the Interstate Commerce Commision. The original suspension order elapsed June 15. The commision today ordered a month's suspension, the final suspension elapsing July 13. The second suspension, which is made under the Commission' rule of practice, was made to allow additional time for the Commission to study the evidence presented at oral hearings before Commissioners Clark, Aitcheson and Meyer.

The order issued by the Commission today forbids the Washington-Virginia Railway Company to change its fares and charges and to change its practices until the investigation and suspension proceeding shall have been disposed of or until the period of a suspension and any extension thereof has expired, unless authorized by special permission of the Commission.

The suspended schedules, which were filed by the railway company in February, provide an increase one way and round-trip fares, special car charges, commutation fares and the cancelation of the 25 trip commutation book ticket fares between Rosslyn, Va., or Washington and points on its line. In general the road seeks a 10 per cent increase in the flat fare between all stations, which it claimed in oral arguments before the Commission it needed to pay operating expenses.

Attorneys for the road claimed in summing up their arguments before the Commission declared that the road needed approximately $550,000 additional revenue per year to put the road on a sound financial basis. They claimed that this additional revenue could be obtained by a flat increase of 10 per cent in the one way fares and by abolition of the 25 trip ticket, which they claimed was an injustice to the road and failed to yield sufficient revenue to justify its continuance.

SLOWLY RISING WATER SUBMERGES PRISONER IN WELL

New York, May 28.—Workmen have been engaged all day in trying to rescue a man imprisoned by a cave in in a 60 foot well on Orange mountain, near West Orange, N. J.

While pumping out the water as it reached higher and almost submerged Michael Kovzowski, there was a fresh cave in, which is believed to have spelled Michaels doom. Previous to this second cave in, Michael had shouted up the well telling of the progress of the water around him. "Water to the knees," he cried. Then, later, "Water to the hips. Help, quick!" And then, "Water up to the waist!" and then—the cave in.

The men are still working tonight, with little hope of finding the man alive.

THE COAL SITUATION

The present summer prices of coal cannot be guaranteed after this week. The United States Geological Survey declares that coal may reach last year's level. Each day coal becomes more in demand, and as the supply of anthracite coal in the U. S. is limited, the prices will rise accordingly.

We honestly suggest that all "Fannon patrons" definitely place their orders THIS WEEK.

"HOCH ENGLAND" GERMANS CRY

Cries Greetings as British Troops Arrive

TO FORCE SHOWDOWN

Advance Guard of Troops Destined For Duty in Upper Silesia Cordially Greeted by Former Foes

Breslau, May 28.—"Hoch England," "Hoch Ireland" and "Down with Poland," "Hail our deliverers" were the shouts which greeted the advance guard of the British as they entered this city yesterday morning and Oppeln at 3 o'clock yesterday afternoon. The excited German Silesian population gathered at the railroad stations to cheer the khaki-clad representatives of "perfidious Albion," whom they hated the most of all the nations fighting against them in the great war.

Berlin, May 28.—The first of the new English troops have arrived at Oppeln to take over control of Upper Silesia. Within 24 hours four battalions will be ready to cross over and set up new headquarters in the insurgent territory.

The troops have come, not to negotiate with Adalbert Korfanty, but to replace him. They cannot hope to disperse the hundreds of more or less independent bands which are fighting under Korfanty's orders, but they can remove the civil government he set up, patrol the chief towns impartially and guard the main roads.

The British feel their authority has been flouted, and now that they have some troops of their own, they are going to re-establish authority or come to a showdown.

If Korfanty yields and gives up all he has gained and more, the situation will pass quickly with a short season of scattered skirmishes as the insurgents withdraw into the country from the capture drowns. If the insurgents resist, the German Selbschutz will fight beside the British and the consequences will be endless.

The German Selbschutz would like this better, as it might lead to further complications between Fance and England, and would play into German hands. As the Selbschutz lie along a 50-mile front and each unit has in view the capture of particular towns, it is impossible to prevent them from fighting, but from the viewpoint of the Poles the crossing by the British from the German to the Polish line at the same time the Selbschutz are active cannot help looking like British support of German arms. The Germans also regard the new British troops as having come to their aid.

French troops have ceded control of Myslowitz, Upper Silesia, to Korfanty the Polish leader, and in Kattowitz the French have pulled in their outposts and so are attempting to police only the center of the city.

This means that the entire industrial region is under direct Polish control. There are a few French garrisons between Beuthen and Kattawitz, where the Germans are holding out. The towns are likely to capitulate within two or three days. Korfanty has asked the Germans in the towns to petition the Interallied Commission to turn the towns over to him. In his process of pacification he has Polandized the established government in a way and has tried to start up industries again.

Sosnowsic, Insurgent General Headquarters, May 28.—Albert Korfanty, the leader of the Polish insurgents, in a telegram to the Interallied High Commission at Oppeln, announced his readiness to negotiate an armistice with the armed German forces in Upper Silesia, and declared he will place the responsibility for its observance by the Germans, and also the observance of the eventual peace, on the shoulders of the Interallied body.

It is declared one of the conditions for a parley is that the insurgents will not be disarmed.

Wanted, A Spokesman.

Ambassador George Brinton McClellan Harvey and Admiral William Sowden Sims have spoken, the Ambassador has told the British people that the United States went into the World War because it was "afraid not to fight," and then did nothing more than "hasten" a victory that was already a foregone conclusion; the Admiral has supplemented him by describing to the same people the American Navy and its part in the war as "reserves" in the rear for the British Grand Fleet.

By every one of the hundred thousand American youth whose bodies are now cold and lifeless and whose graves we are about to cover with flags and flowers; by those intrepid American sailors who mined the North Sea, drove the submarine from the danger zone and convoyed in safety our men and munitions three thousand miles; by every bright heroic blade that flashed from Chateau Thierry to Sedan; is there no one in all this broad land of ours who will have the manhood to rise and give these slanderers and sycophants the lie?

There are several members of Congress who fought in the World War. Why do they not speak out? There is the great American Legion with its thousands and thousands of members, all who served. Why do they not speak out? There are the four million and eight hundred thousand who were enrolled under the American flag, their kinsmen and friends, and many million more who struggled, however humbly, at home. Why do they not speak out?

More Comedy.

There is no sense in persecuting an ignorant old German woman because her son was a slacker and because she as a mother stood behind him, or rather in front of him.

And that seems to be what the Alien Property Custodian has done in taking over all the Bergdoll property and compelling Mrs. Bergdoll to leave home.

The Bergdoll affair has already had enough farcial chapters in it without adding any more. The United States Government should get Bergdoll if possible, but not vent its disappointment over not getting him on his poor old mother. America never wages war on women and children.

Up, Down or Still. Stanoing

Whither on its wavering way wendeth that much mooted and abused thing known as the cost of living? We have been told with solemn and apparently sincere assurances that it was going down, although we have only too often discovered from experiences to the contrary with our butchers, bakers and candlestick makers that it was standing still, very still.

No one has had the temerity to tell us that the cost of living is actually rising until Prof. Irving Fisher of Yale University came along yesterday before the Senate and House Committees on Civil Service and made the flat-footed statement, "The cost of living is going up, not down." Professor Fisher went on to say, "We are at present going through a thank-you-ma'am stage, and very shortly prices will rise so that a year from now they will be considerably higher than at present."

Professor Fisher is a great economist but we hope with all our hearts that he is a false prophet.

VIRGINIA NEWS

Newport News, Va.—The 299th anniversary of St. Luke's Episcopal Church, in Isle of Wight county, was observed May 25.

Governor Davis has issued a statement in which he indicated that he would lead the fight to resist any effort on the part of Congress to acquire and place Mt. Vernon, the home of George Washington, under Federal control.

Roanoke, Va.—Nearly 1,600 Virginia former service men during the last eighten months have been given free scholarship in 87 schools, colleges, and universities throughout the country.

Lexington, Virginia—Theodore G. Empie, of Wilmington, N. C., has presented to Washington and Lee University a pair of handsome colonial satin breeches, once the property of George Washington. The breeches, which were made for and worn by Gen. Washington, became, after his death, the property of Mrs. Fielding Lewis, a neat relative, in whose family they remained a number of generations. They will be placed in the univerisity museum.

There are more fertilizer plants in Virginia than any state in the country with the exception of Georgia, South Carolina and Maryland, according to preliminary statistics for the 1919 census of the fertilizer industry, made public by the bu eau of census, United States department of commerce.

Work has been started on the portion of the Little River Pike between Aldie and the Fairfax county line. The work is being done, it is understood, by the Board of Supervisors of the State engineers.

SPORTS

Tomorrow, Sunday, 3 P. M. on Baggett's Field, upper King Street, the Dreadnaughts will meet the fast nine from the Gibraltar A. C. of Washington, D. C., and on Monday the same hour they clash with the champions of Southern Virginia the Newton-Woodward, A. C., of Richmond, Va. Starting Sunday the Dreadnaughts have a severe schedule the remainder of the season and for the locals to be successful as they were last season classy ability has got to be shown.

The Gibraltars in Sunday's game come to us with a reputation well earned and if the "Ds" set them back they will have removed a possible contender for final season honors.

The Newton-Woodwards, of Richmond who come here Decoration Day have got the ability and is the most feared team in the state, having defeated all teams who faced them this season up to last Monday and dope is lacking since that time.

Alexander, Snead and Frye are scheduled for mound work in the week-end frays while Stevens a receiver of rare ability will do duty in the cage.

Everybody likes a winner and especially so when every possible means is resorted too in furnishing the quality of entertainment wanted, so on either day if you are looking for clean amusement, the Dreadnaught Park is the reliable place to find it. The crowd will be there; plenty of room and you are welcome.

In last night's issue of this paper, it was stated that the Trinity S. S. baseball team defeated the Torpedo Plant team, by the score of 7 to 5, which was true, but it did not state that it was a practice game and not a regular game. We wish to let the public know so that there won't be any misunderstanding that we have not and will not play any local base ball teams until after August 20 because we are scheduled up until that time. All games that have or will be scheduled with local teams will only be practice games, but after August 20th, we would like to meet any local team regardless how fast they are, including the big D's, Triple A's, Cardinal A. C., Del Ray A. C., and all Sunday School teams that are in the city. We may not be fast ball players, but we are not afraid to tackle any team regardless who or how fast they are. For games write "Manager" Alexandria Torpedo Plant, U. S. Naval Torpedo Station, City.

Little needs be said of the baseball game played yesterday afternoon between the Sunday School League teams of the First and Second Baptist Churches, except to state that the score was finally ascertained to be 29 to 0 in favor of the First Baptists.

Seven innings only were played. The winners however needed but the second inning to score enough runs to last through several games. In that inning five bases on balls, no hits, and a varied assortment of errors on the part of the Second Baptist team netted the winners seventeen runs. The losers tried three pitchers to no avail and thereafter the winners scored practically at will. Every man on the winning team made one or more hits and scored two or more runs.

The losers were unexpectedly weak at the bat or else Kendrick of the First Baptists pitched a most effective game. He allowed but two singles——one in the first and one in the second; struck out ten men and gave but one base on balls until the last inning when three passes in succession after two out, failed to net a run. On the winning side the batting was hard and clean, the fielding fast and accurate, double plays in two instances, checking the only scoring opportunities of their opponents.

The work behind the bat of Kendrick and the all round play of Snoots featured the work of the Second Baptist team.

On Wednesday, June first, the Second Baptists will cross bats with the team from the M. E. South Sunday School, at the thirty-first Street field.

Triple A's play Camp Humphreys Civilians tomorrow on the shipyard ground at 3:30 p. m. The A's will journey to Leesburg Monday to play the favorites there. All fans are invited to go with them.

Harding Signs Emergency Tariff Law

Washington, May 28.—The Emergency Tariff bill was signed late yesterday by President Harding.

The new law will become effective today. It will affect, for a six months' period, most farm products, and carries a provision designed to prevent the dumping of foreign goods in this country.

In event of passage by Congress of the Longworth resolution, under which new import duties would become effective immediately upon introduction of the Permanent Tariff bill, House leaders said, it naturally would supersede the emergency measure, which carries only a few items compared with thousands in the general bill.

House Republicans plan to meet Wednesday night to decide whether the resolution shall be made a party issue.

ALL WORN OUT

Does morning find you with a lame stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Alexandria people endorse Doan's Kidney Pills. You can rely on their statements.

Mrs. M. E. Williams, 523 Oronoco Street, Alexandria, says: "I was so bad off with pains in my back I was about all worn out. I would put my hands on my back trying to relieve the pain through my kidneys. When I bent over I could hardly straighten again. This weakened me very much and made me so nervous I could hardly stand the least noise. Dizziness affected me when I bent over and everything would turn black. My kidneys didn't act at all right. I tried different things such as purting turpentine on the small of my back until it would blister. Nothing did me any good until I started using Doan's Kidney Pills. I kept getting better right along and was soon cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Williams had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Lloyd George Again Attempts to End Strike

London, May 28.—The Prime Minister, Lloyd George, initiated another attempt this morning to end the coal stoppage when he addressed a deputation of mine owners and the executive body of the miners union, urging the necessity of an early resumption of work because of the country's alarming increase in unemployment and the general slowing down of all industries.

It has been eight weeks since work in the mines ceased. Lloyd George repeated the government's offer to grant 10,000,000 pounds to tide the coal industry over the period during which a permanent settlement shall be negotiated, but warned the conference there was no chance of increasing that amount.

ALL BERGDOLL HOLDINGS NOW IN HANDS OF U. S.

Philadelphia, May 28.—All the property of Grover Bergdoll, draft evader, who is now in Germany, was seized here today by Col. Thomas W. Miller, alien property custodian for the United States Government by order of President Harding. With it was seized the property of his mother, Mrs. Emma C. Bergdoll, and of his brother, Erwin Bergdoll, nowserving a sentence in the army disciplinary barracks at Leavenworth, Kansas, as a draft evader.

The action was taken under a new ruling, which permits the Government to take over the property of those who have foresworn their allegiance. Bergdoll having escaped to Germany and announced himself as a German citizen, made himself liable under this law. Mrs. Bergdoll was given five days to turn over to the local representative of Alien Property Custodian an account of all Grover's property in this country, both real and personal. If this is done the remainder of the Bergdoll property will be returned to her. If it is not the entire estate will remain in the hands of Government officials, and in addition she will be liable to imprisonment for contempt.

The value of the seized estate owned by Grover Bergdoll is estimated at $83,226. Summarized, it was explained by Government officials, the seizure means:

All of Bergdoll's realty, mortgages and bank accounts, including his share in the Bergdoll brewery, will be administered by the Government instead of his mother, who has held the property under power of attorney.

Bergdoll is cut off absolutely from his financial resources in this country. If his mother tries to communicate with him in any way she will make herself liable to a jail sentence. If he wants his property, he must return to the United States and file a claim. If he does that, he must go to prison and serve his term. Every cent of expense connected with the seizure of the estate will come out of Bergdoll's pocket.

ONE KILLED, PLANTS BURNED AS LYNCHBURG FLOOD RESULT

Lynchburg, Va., May 28.—Probably $100,000 damage was done here last night by an unusual cloudburst. As a result of the downpour fires were started in the plants of the Adams Bros. Payne Company and C. S. Hutter, feed, seed and building supply dealers. The warehouses of these plants were separated only by the track of the Southern Railway.

The two fires were started when the flood of water got into lime stores. Adams Bros. Payne Company's fire started about 9 o'clock and the firemen were able to roll 400 barrels of lime from the building and keep the fire down until the danger was over.

The Hutter fire did not break out until about 2:30 this morning, and when the blaze was discovered the five story building was enveloped in flames. This building, together with a small building belonging to Mr. Hutter across the Durham branch of the Norfolk and Western Railway, were destroyed. Across the street the Boston Cafe building was damaged and the building flooded.

Fireman C. D. Robey was almost instantly killed by a falling Southern Railway high power wire, which struck him on the neck. Fireman Krause was also hurt, but will recover.

Lost Girl and Boy Rescued After Being Four Days in Closet

Paterson, N. J., May 28.—Missing for ninety hours, Stella Weiner, aged 5, and her playmate, Harry Barber, 7, were found yesterday suffering from hunger and exhaustion, in the clothes closet of a vacant apartment in which they had been imprisoned. They had been without food and water since Monday afternoon, when they disappeared.

After they had been revived by being fed orange juice, weak coffee and milk, the children explained they entered the closet while playing hide and seek, but had not closed the door. Soon afterward, they said, Ethel Beilinofsky, another playmate, slammed the door and they did not realize that they were sealed up until after she had left the room. Ethel, who is only 4, either forgot to mention that she had closed the door, or else didn't realize they were in the closet.

Today Jacob Weiner and his cousin Samuel Miller, visited the vacant apartment for a game of cards. Strange noises from a clothes closet startled them. They opened the door. On the floor Weiner beheld the partly conscious form of his young sister and huddled in a corner the limp figure of her boy playmate.

LITTLE GIRL DIES OF BURNS

ARE THE JAPANESE REALLY EFFICIENT?

Not If You Judge Them By Their Telephones, Says Julian Street

Although the Western World has begun to take for granted that the Japanese have reached an enviable position in the world because of an alleged efficiency in all matters, a close inspection of actual facts shows up the Jap as almost childish. Writing for McClure's Magazine in an article entitled, "Are the Japanese Efficient?" Julian Street, noted traveler and writer, gives many instances of stupid Japanese inefficiency, particularly as to telegraphs, telephones and transportation. "Tokyo, with a transportation problem which ought easily to be solved, has utterly inadequate street car service," says Mr. Street. "The rush hour there is only saved from being as terrible as the rush hour in New York by the lack of subterranean features.

"But it is in all matters having to do with communications that Japanese inefficiency is most strikingly brought to the notice of strangers. The postal service is poor, the cable service is expensive and absurdly slow (when I was in Japan it took about ten days to cable to America and get an answer back), and the telephone service is unbelievably awful. All these, like the railroads, are owned and operated by the Government.

"It is like opera bouffe. Though the demand for new telephones far exceeds the supply, the government makes no appreciable effort to remedy the situation. Every year an absurdly small number of lines is added to the existing system. These are assigned by lot among those who have applied for them. Thus, if a man be lucky in the draw, he may get a telephone within two or three years. But I know one gentleman in Tokyo who was not lucky in the draw. At the ripe age of sixty-seven he applied to the government for an addition ofice telephone. The instrument was installed shortly after he had celebrated his eightieth birthday. Long may he live to use it!

"If one be in a hurry to have a telephone put in, one does not apply to the authorities, but attacks the problem in a manner more direct—either through a telephone broker or through advertising. Thus one can get in contact with a person wishing to sell an installation and a number. The number must, however, be in the exchange serving the district in which the telephone is to be placed.

"Though this is a very expensive method, it is the one usually employed in Tokyo and other large cities. A telephone for the business district of the capital may cost as much as twelve hundred dollars, but in a residence district it will be considerably cheaper—five hundred dollars or less.

"A curious detail of this business is that low numbers bring the highest price in the open market. This, I was informed, is because green operators, in process of being broken in, sit at that end of the central switchboard at which the high numbers invariably occur, thus guaranteeing the owners of high numbers a grade of service calculated to drive them to the madhouse."

Wilson Asks If Duties Which Grew Out of War Have Been Fulfilled

Washington, May 28.—Woodrow Wilson broke yesterday the silence he has maintained since he retired from the White House on March 4.

In a Memorial Day letter to the editor of The Stars and Stripes, which was published yesterday in that soldier periodical, he declared that the American people "shall not be able to enjoy the full pride of the day's recollections until we have made sure that the duties that grew out of the war have been fulfilled to the utmost."

"Are we sure?" he asked. "If we are not, shall we not soon take steps to do whatever has been omitted?"

The full text of the former President's letter follows:

"Memorial Day has always been one of our most solemn and thoughtful anniversaries, when we recalled great memories and dedicated ourselves again to the maintenance and purification of the nation, but this year it has an added and tremendous significance because the memories and sacrifices of the great World War are now among the most stimulating of the recollections of the day.

"We celebrate the immortal achievements of the men who died in France on the field and in the trenches, far away from home, in order that both our own people and the peoples across the seas might be delivered from the ugliest peril of all history. It is our privilege not only to indulge a high and solemn pride and grief for the heroes of that great struggle, but also to rededicate ourselves to the achievement of the great objects for which that war was fought. We shall not be happy; we shall not be able to enjoy the full pride of the day's recollections, until we have made sure that the duties that grew out of the war have been fulfilled to the utmost.

"Are we sure? If we are not, shall we not soon take steps to do whatever has been omitted?"

Woodrow Wilson.

IDEAS

mixed with ink create Good Printing. With the vivacity of a living thing, this printing that sells finds its reader, whether he sits in the circle of illumination from the library lamp of frowns through business problems in the harsh noon-light at his desk, and leads him unresistingly down Purchaser's Row.

There, with fresh, vivid impression, he sees your products as it is, becomes conscious of the personality of your goods and finds that personality desirable.

20-FOOT SPITE FENCE STIRS SHORE COTTAGERS

Atlantic City, May 28.—The erection of a fence, twenty fet high, between her property and that of Thomas M. Davis, on fashionable States Avenue, is the answer of Mrs Margaret Workman to a suit to collect $500 damages for alleged slander filed by Davis. The fence reaches to the top of Davis' second story window.

The fence cuts off part of Mrs. Workman's view of the ocean, and it is expected that neighbors on the land side of her property will institute action. Mrs. Workman was the original owner of the land occupied by Davis' house, and Davis, in his suit, alleges she attempted to discourage prospective purchasers by saying there was a flaw in the title

PHILA. MAN KILLED BY EXPLODING SHELL

Pennsgrove, N. J., May 28.—When a three inch shell on a dump in the ordnance depot exploded here this afternoon a flying fragment of the shell struck William Brown, 44 years old, of Philadelphia, in the left side, breaking every rib loose from the backbone. He was rushed to the Salem Hospital where he died two hours later.

All the powder is supposed to be taken from the shells before they are thrown on the dump, but it is believed a small quantity of black powder still remained in this one. Brown was driving a team about 20 rods from the dump when the explosion occurred.
